They say that trains are left standing on the track from the saw mills, and the ferry best, or start out with their teams to work in the morning. We understand that the City Connell will be applied to for relief. We think there is too much ground for complaint.

Unquestionably the best sustained work of the Harper's Magazine.

Notices of the Press.

There are few intelligent American families in which HARFER's MANAINK would not be an appreciated and highly welcome guest. There is no monthly Magazine an intelligent reading family can leas afford to be without. Many Magazines are accumulated. HARFER's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechianical execution. There is not a cheaper Magazine published. There is not confessedly, a more popular Magazine in the world—New England Housesterd.

A repository of biography and bistory, literature, science, and art, anequaled by any other American publication.

The volumes are as valuable as a mere work of reference as any cyclogradia we can place in our libraries. HARFER'S MANAISTER is a record of travel every where since the hour of its establishment. Livingstone and Gordon. Cumming in Africa, Strain among the Audes and Ross the hour of its establishment. Livingstone and tearning. Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordan—indeed, all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine—N. Y. Standard.

It is one of the wenders of journalism—the editorial management of Harten's.—The Nation, N. Y.
